

CODE-A-THON

TEAM DETAILS

- Project Title
- Selected Domain
- Team Members (Name, College, Year)

PROBLEM STATEMENT AND DOMAIN RELEVANCE

- What real-world problem are you addressing?
- Who is affected by this problem?
- Why does your problem statement fit this domain?

PROPOSED SOLUTION

- Overview of the solution approach
- Key features and innovations
- How the solution addresses the core problem

TECHNICAL APPROACH

- Key technologies/ tools you plan to use
- High -Level workflow or architecture (Diagram Preferred)

PRODUCT SCOPE & FEATURES

- Core features you plan to implement
- What the final product will be able to do

FEASIBILITY ANALYSIS

- Technical Feasibility: Technology, tools, expertise
- Economic Feasibility: Cost-effectiveness, resources
- Operational Feasibility: Implementation and usability
- Financial Feasibility: Budget, scalability, ROI

INNOVATION / DIFFERENTIATION

What makes your solution unique or better than existing ones?
